

QUARTERLY REPORT ON ACTIVITIES October to December 2021

Overview

Copper Strike Limited ("**Copper Strike**" or the "**Company**") is pleased to provide an update on its activities for the quarter ending 31 December 2021.

Copper Strike is currently actively seeking project acquisition opportunities.

Corporate Activities

As at 31 December 2021 Copper Strike owns 9.14 million shares in Syrah Resources Limited.

Since the approach from the ASX over 12 months ago where ASX advised, that in their opinion, Copper Strike's current operations are not sufficient to warrant the continued quotation of its securities, the Company has reviewed a number of different projects in the Materials, Financial and Technology sectors. Acquiring a project is not necessarily a straightforward task. The Board is focused on finding a project that will add value to the share price as we go forward. The directors are also shareholders and strongly believe that the best outcome for Copper Strike will be finding an opportunity that has the potential to provide an appropriate level of upside from a growth perspective.

To date, the Board has reviewed a number of different projects in the Materials space. Some of these were located overseas and others within Australia. Many of these were not advanced enough for the Company to take further, others had technical issues that reduced their attractiveness, while others were in jurisdictions that prevented due diligence due to the impacts of COVID-19 lockouts and lockdowns.

In addition to the Materials space, the Board has reviewed a number of opportunities in the Financial and Technology space. Some of these have significant future potential however are not of an appropriate size for Copper Strike to progress, while others have vendor expectations of value that we believe will not offer Copper Strike shareholders sufficient upside through any potential transaction.

The directors currently believe that the Company's future lies within the Materials sector and is continuing to review opportunities in that space. As a result, the Company terminated the engagement with EM Advisory Pty Ltd who have specific expertise in the non-Materials sector. EM Advisory were assisting the Company's strategic decision making and due diligence processes.

The Company will keep shareholders informed of progress and will make an appropriate announcement when we are able.

Annual General Meeting

The Company held its Annual General Meeting on 8 December 2021, in which all resolutions were carried. The resolutions included the adoption of the remuneration report, election of directors, ratification of securities previously issued, grant of performance rights to directors in lieu of increasing

existing cash base fees which are currently below market rates, and in recognition of additional services provided to the Company over the last 12 months, amendments to the Constitution, and approval of the 10% Placement Facility.

Listing Rule 12.1

As announced on 11 December 2020, the Company was advised by ASX, that in their opinion, Copper Strike's current operations are not sufficient to warrant the continued quotation of its securities.

The ASX originally stated that it will afford the Company until 9 June 2021 to demonstrate to ASX that Copper Strike is compliant with Listing Rule 12.1. ASX subsequently extended the deadline, as announced on 1 June 2021 and 8 July 2021. The Company applied for a further extension of time beyond 9 August 2021, in order to complete an appropriate acquisition. ASX advised the Company that they will respond to the Company's request for an extension in due course, and in the interim will not suspend the Company at the current time.
